Protect Your Most Valuable Asset With: *Quality Accident Coverage*

Even when your employees are active and healthy, accidents are a part of life. Accident insurance from Renaissance can help give employees peace of mind knowing they have protection if the unexpected should happen. It pays insurance benefits directly, regardless of what their medical insurance plan covers, and employees can use the benefits any way they choose.

What Makes Accident Coverage So Important?

Although an injury may not be life threatening, the cost for an ambulance, emergency room visit and follow-up treatment can easily reach thousands of dollars. Because Accident coverage pays benefits directly, employees can have coverage for their costs while waiting for other coverages, such as disability insurance, to begin.

Accident Insurance Provides:

Affordable Addition: Group rates make Accident insurance affordable for employers working around small or tightened budgets.

Flexible Cost: Offered on an employer-paid or voluntary basis to meet employer needs.

Valuable Benefits Package: Voluntary accident insurance helps provide access to sought-after employee benefits.

Did You Know?

Every year there are 30 million emergency room visits due to accidental injuries, and 13.6 million adults aged 20-49 are injured.*

Protect Your Employees With Renaissance *Accident* Coverage
